

How to Login to Canvas

To log into Canvas *for the first time*, you need a User Name and Password.

User Name: Your user name is based on your Pensacola State email address, specifically the part in front of the @ sign. You do not need to input your whole email address.

Example:

PSC Email Address: j_p1234@students.pensacolastate.edu

Canvas User Name: j_p1234

Password: Your default password includes the College's initials "Psc" (with the "P" capitalized) and your birth date in this format: PscYYYYMMDD

Example:

If you were born May 7, 1990, your default password is: Psc19900507

Important Notes:

A) You must change the default password after gaining initial access. (Anyone who knows your date of birth could gain access to your Canvas account!)

B) Once logged on you will see your Canvas "Dashboard." From here you can access your courses by clicking the "Courses" link at the top of the page.

C) If you can't remember your previous password and need to have it reset, please click [here](#) and then click "Don't know your password?" (You may also call the toll-free Canvas Help Desk at 855-534-1843.)

Once logged in you should see this bar:

Click on the Courses arrow and select the course: 20161_MAT1033C_Lab.

This takes you to the Diagnostic Assessment, Labs, and also gives you access to Virtual Math Tutoring.

Computer Labs on Campus:

The Math Lab on the Pensacola, Milton, and Warrington campuses have computers for student use. On the South Santa Rosa campus there is a computer lab in room 5134.

The library on each campus has computers for student use.

On the Pensacola campus there are computers for student use in Building 21.
